RE: Proposal # 009020 for job
on 8-3-16

Glassboro, NJ 08028.

My wife and I wanted to say THANK YOU for the excellent performance your company demonstrated in the removal of four trees and four stumps from our property recently.

From our contacts with your office staff, the proposal, the four men who removed the trees and stumps, to making the payment upon completion; professional business practices were always there.

Your pink chippers machine is a great asset along with your continuous support for breast cancer.

We have already passed your name onto our friends and contacts for their possible use, if needed.

Please feel free to use our names as references to your customers.

Sincerely,
Robert R. Steere
Michaelene A. Steere
